September 2009

Dear Member,

Christmas is coming!

Members Accounts

Around this time of year many members start receiving their Christmas stock; normally suppliers like to have these on public show as early as possible.

Most suppliers offer an extra period of credit to members for taking in seasonal stock now! However, sometimes invoices for these goods appear early on the **Newspower** statement. **Newspower** is unable to distinguish between normal and seasonal stock and relies on suppliers to make the correct current month charges. While most suppliers comply, sometimes a few invoices slip through the net and are shown far too early on members' statements. If this happens to you, simply please contact the **Newspower** office and we will arrange to defer any payment until the correct pay month.

Tel: 01383 861555

**Agents for
Kardwell Hobbs**

**Special deals on all Christmas
Cards, toys, stationery & Gifts**

Cold Calling!

Are you fed up with telesales calls? Have you heard of the **Telephone Preference List**? No? Well, help is at hand! If you are being pestered by unwanted telesales calls, either at home or in the workplace, then all you need to do is to telephone the **Telephone Preference Service** on **0845 070 0707** and register your name, address and telephone number. If you're being plagued by unwanted faxes you just phone the **Fax Preference Service** on **0845 070 0702** and register with this service. This new scheme came into force over 2 years ago and replaced the old voluntary arrangements. Direct marketing companies that make unsolicited calls or send unwanted faxes to anyone registered with the services now face fines of up to **£5,000**. If you continue to be bothered by unwanted calls after you have registered, then phone the Data Protection Registrar on **01625 545745**.
